

ALTERNATIVE TRANSPORTATION PROGRAMS

ECU TRANSIT

ECU Transit offers routes around main campus, health sciences campus, commuter park-and-ride lots, off-campus housing, and several shopping, dining and entertainment areas around Greenville.

SAFERIDE

A point-to-point, on-demand van service called SafeRide works in conjunction with the bus system to help ensure safe connections to evening routes, as well as safe travel around campus and adjacent areas at night after most regular daytime service has ended.

ZIMRIDE-RIDESHARE

Zimride is a free ride-sharing network that helps members of the ECU community find, post, and coordinate carpooling alternatives to individual transportation needs. It provides a central location for member-posted ride needs and offers, and helps individuals connect for mutually beneficial ride arrangements. Membership registration is not required. All you need to log in is your ECU PirateID and passphrase. This means that you will be connecting only with members of the ECU community, giving you the most efficient and relevant ride options.

CAMPUS BIKESHARE

ECU is bringing the bikeshare Gotcha to the University Community.

BICYCLE CLINIC

Parking and Transportation Services is pleased to provide our campus with basic bicycle maintenance and repairs, free of charge to the customer. Our department gladly covers all costs for this wonderful cause, as well as for the continuing safety of the ECU cycling community. The bike clinics are held in front of the Student Rec Center on Fridays from 10 am to 12 pm during fall and spring semester.

PLANNING TO PARK ON CAMPUS?

YOU WILL NEED A PARKING PERMIT!

New to Campus Parking?

A valid parking permit is required to park on ECU Campus. We operate according to a lettered and numbered parking zone system to designate zone restrictions for each parking lot. Each lot has a sign at the entrance(s), that will tell you what zone permit is restricted to that lot. Each letter associated with a zone has a number beside it that will indicate the different levels of access. All odd numbered zones are for faculty and staff, while the even numbered zones are for students.

We also provide Pay by Space meter lots for short-term parking. These stalls/spaces within these lots are numbered and must be activated at all times, even if you have a permit. If you are unclear as to when you can legally park in a certain lot, our office is available for clarification during normal business hours. Our website is also a valuable resource for everything you need to know about parking on campus and more.

Visitors

Visitors to main campus will find convenient parking in the Pay by Space meter lots and the parking garage. The Pay by Space stations and parking garage are for short-term parking, while a Visitor permit **MUST** be purchased for longer visits. Visitors that have a state-issued disabled parking placard will need to let our staff know when purchasing their Visitor Permit, that they are in need of medical accommodations in order to ensure proper authorization to park in the handicapped spaces on campus.

PARKING GARAGE

ECU's first parking garage is now open. Located behind the main campus student center, the garage has 724 spaces including 15 ADA spaces.

Garage Hourly Parking

Did you know non-garage permit holders can park in the garage too? It's true! The fee to park in the garage is \$1/hour and is available to all ECU faculty, staff, students and campus visitors as long as space is available. The garage provides convenient parking for Rec Center, Joyner, and more.

HELPFUL PARKING TIPS

- Make sure you are displaying your permit properly.
- Do not park in a fire lane or any other service/maintenance area.
- Do not park in reserved spaces.
- Park in the appropriate zoned parking lot for the type of permit you are displaying.
- Do not park in a handicapped space without proper authorization from our office.
- Make sure your vehicle is properly registered in our system.
- We enforce our parking rules to make sure we utilize the limited parking spaces we have and ensure those with parking permits are able to find parking in their areas.

HEALTH SCIENCES CAMPUS

West Research Campus

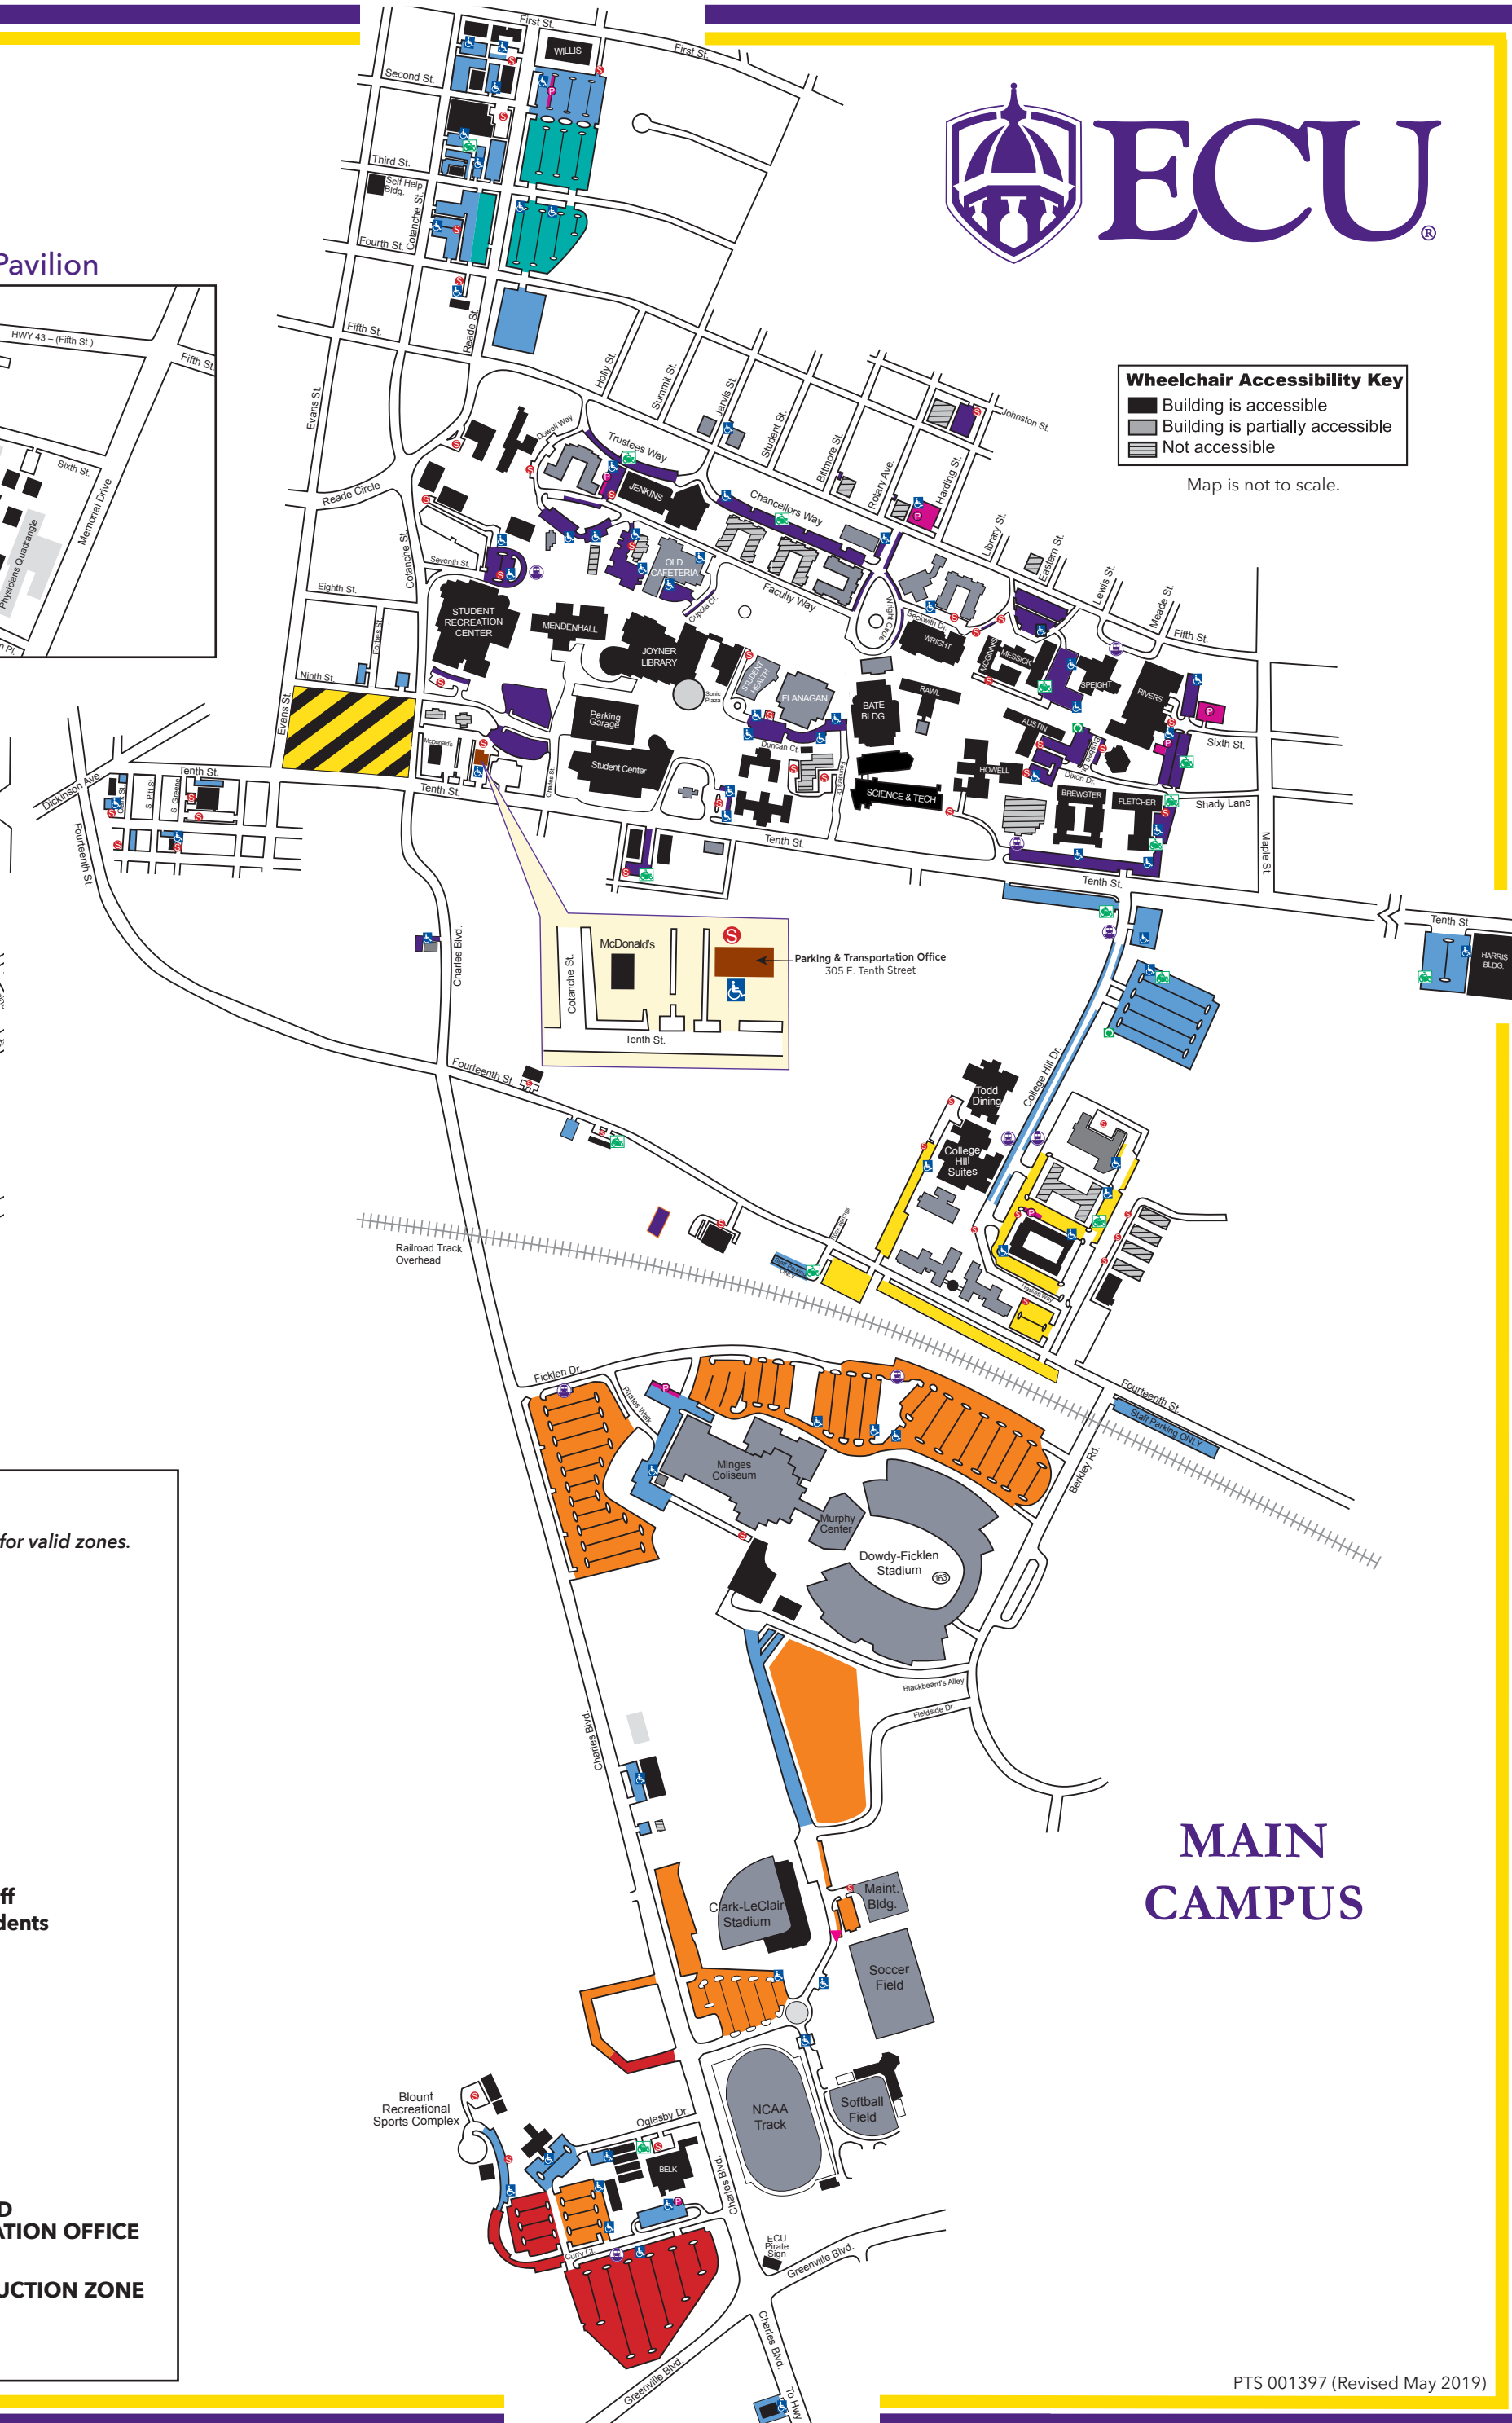

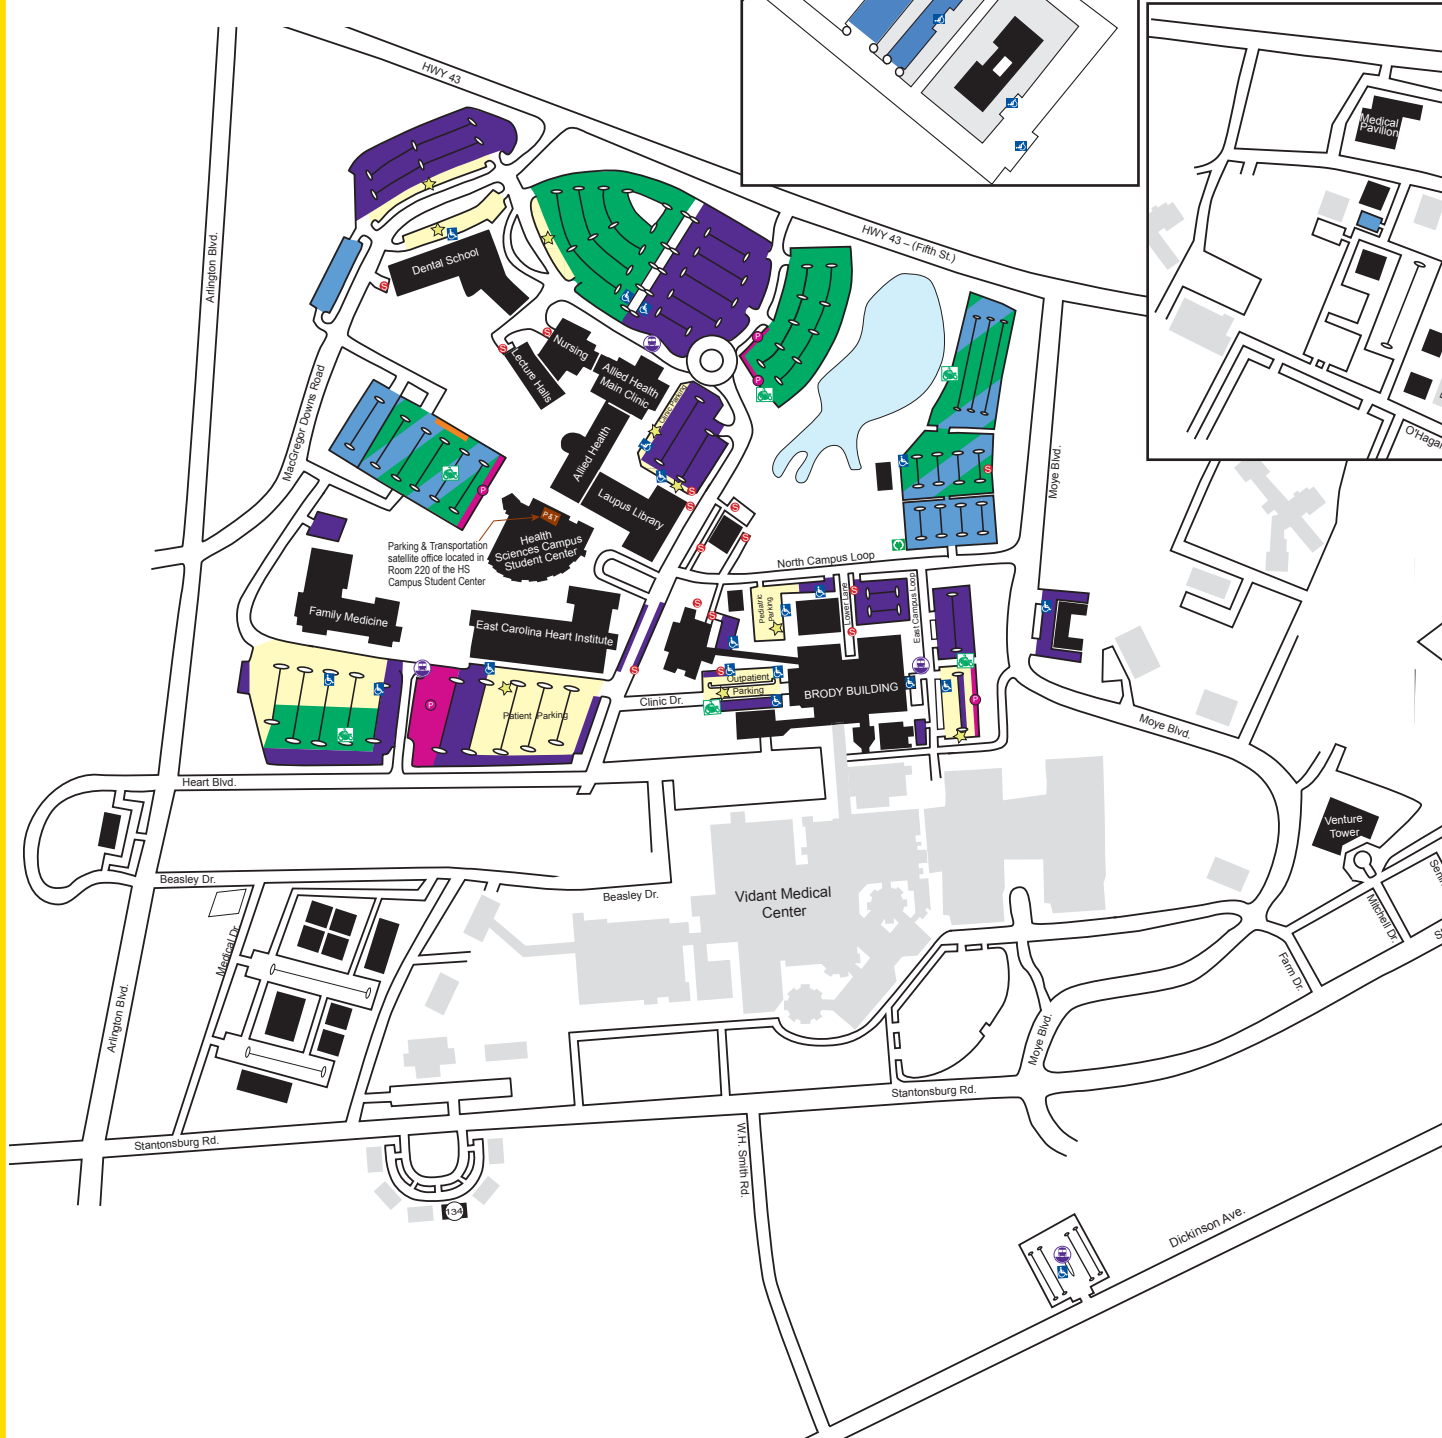

Medical Pavilion

Wheelchair Accessibility Key

- Building is accessible
- Building is partially accessible
- Not accessible

Map is not to scale.

PARKING ZONES

Subject to minor changes due to construction or other reasons. Check signs carefully before parking. Check parking permit for valid zones.
